#### Tariffs and Conditions of Supply

In exercise of the powers conferred by provisions 49 & 59 of the Electricity (Supply) Act, 1948 (LIV of 1948) the Administrator of the U.T. of Laccadives, hereby notify for the information of the public that the Schedule of Tariffs appended below will take effect from 13th September 1962 for supply of power in Minicoy island. With effect from the same date the condition of

supply, charges for giving service connection and general and miscellaneous charges as given therein will be applied to Minicoy island.

#### *Schedule of Tariff*

##### I. Domestic and Commercial Supply including Govt. Offices etc. (Schedule DS & CS).

1. *Availability.*—Available to single residential and non-residential premises, flats, clubs, hotels, hospitals and schools, etc. for lights fans, radios and other household appliances.

Resale and sub-metering to tenants, other flats or households and to other parties is strictly prohibited except with the permission of the Deptt.

2. *Character of Service.*—A.C. 50 cycles, single phase 230 volts.

3. *Tariff.*—60 nP. per unit subject to a minimum charge of Rs. 3.00 per month per connection.

##### II. Street Lighting Supply (Schedule S.L.).

1. *Availability.*—Available for street lighting systems including single systems and road and park lighting, panchayat places etc.

2. *Character of Service.*—A.C. 50 cycles, single phase 230 volts.

3. *Tariffs.*—(a) Street light fittings will be provided and maintained by the Electricity Undertaking at their own cost.

(b) Energy charges : 60 nP. per unit.

##### III. Bulk supply to Govt. Departments including Wireless Station and Small Industries (Schedule B.S.).

1. *Availability.*—Available as power to light house search light, observatory equipment, wireless station equipments and to small industrial power consumers.

2. *Character of Service.*—A.C. 50 cycle, three phase 400 volts.

3. *Tariff.*—(a) The departments and consumers wanting power should bear the cost of power line from the power supply system to their premises and other items of work involved in the supply of power to the consumers concerned, if the distance of the point of supply is over 100 ft. from the supply lines.

(b) Energy charges : 40 nP. per unit for the first 3,000 units per month and 30 nP. per unit thereafter.

4. The above tariff is based on the supply being given through a single delivery point and metering point and at a single voltage. Supply at other points or other voltages shall be separately metered and billed.

##### IV. Schedule of rates for temporary connection.

Temporary connection will be given when required by levying a minimum fee of Rs. 10.00 per connection per week or energy charges at 60 nP. per unit and actual cost of labour with 60 per cent overhead charges for supervision etc., whichever is higher.

**V. Meter Securities.**

A sum of Rs. 15 for domestic and Rs. 50 for industrial connection should be deposited as security towards meter and energy consumption.

No security shall be charged on account of service connections to the Government offices. In case of Government residential quarters occupants are required to submit a certificate from the Dept. concerned to the effect that the Dept. taken upon itself the liability to make good any loss or non-payment of dues from the occupant. In the absence of such a certificate, the occupants will have to pay security of Rs. 15 on the same lines as consumers in private buildings.

**VI. Meter Rental.**

A meter rental of 50 nP. per meter per month for a single phase meter and Re. 1 per meter per month for a 3 phase meter shall be levied.

**VII. Fuse-off call.**

For each renewal of fuse in the sealed I.C. cut out a fee of Re. 1 shall be levied.

*Notes on Tariffs and Conditions of Supply*

**1. Penal interest.**—If bills for a month are not paid within one month from the date of the bill, penalty will be levied at 6 nP. per unit for energy consumed. For periods less than a month, one full month's interest will be charged subject to a minimum of 30 nP. per invoice. In the event of any such bill not being fully paid before the end of the month following that for which payment is due, the consumer is rendered liable to have the service disconnected, after being given seven days' notice.

**2.** During the months of connection as well as disconnection unless otherwise specified, the consumer will be charged for the actuals or the proportionate minimum whichever is higher.

**3.** In the event of any meter being found incorrect and when the actual errors or readings cannot be ascertained, the correct quantity shall be determined by taking the average consumption for the previous three months or the succeeding three months if the former cannot be ascertained.

**4.** The Electricity Department is at liberty to take the service lines from the meter or cut out of service post of any consumer or to take service line over his compound to give service connection to another consumer.

**5.** The ownership of the service line vests with the department who will be responsible for its maintenance.

**6.** The dismantling of service lines, if any required, after a period of 3 years from the date of service connection must be done at departmental cost and not charged to the consumer. If the service line has to be dismantled at consumer's request before the end of the above period of three years, the work will have to be done at consumer's cost. The cost of such dismantling plus 60 per cent charges shall be payable by him.

**7.** If a consumer ceases to take supply before the expiry of the period of three years from the date of connection he will have to pay the minimum charges till the completion of the above three years.

**8.** Extension or additions including charges of size of conductor to meet increased maximum demand, shifting of a service line and/or meter, at consumer's request will be done only as a deposit work. The consumer will be charged the actual cost of materials and labour plus 60 per cent.
